## OPTEK's Optoelectronic and Lighting Solutions...

### Optoelectronic Sensors & Switches

OPTEK optoelectronic components for medical, industrial, military, high reliability, commercial, and automotive applications combine design flexibility with the highest reliability. Available in any package type and size, think OPTEK for your next fluid sensor, slotted or reflective switch, pill pack, or isolator design.

### Magnetic Sensors

For performance and flexibility beyond current position sensor technologies, specify OPTEK's Autopad technology and hall-effect sensor offering. Our magnetoresistive components are used extensively in the automotive industry for engine controls, ignition security and a host of other underhood applications.

## Lumex's Launches New High-Power LED Technologies!

Lumex is again expanding its family of cost and energy efficient High Power LEDs. The addition of Lumex's two new packages, the TitanBriteLED and SuperBeamLED provide a combined total of 34 models in many colors.

These LED packages are well suited for a wide variety of high intensity lighting applications.

www.lumex.com

The new 5-Watt TitanBriteLED can deliver light intensity of up to 250 lumens of brilliant white light at 700mA of current. The 1-Watt SuperBeam LED touts a through-hole design, optical efficiency of 35 lumens per watt and a tight beam angle of 25 degrees.

## Kingbright's 3MM BLUE LAGOON LED

3MM BLUE LAGOON LED  
Emitting Color : Blue Lagoon  
Material : InGaN  
Lens Type : Water Clear
