**Need to Customize?**  
No Problem! We can help.

*Newhaven Display provides the highest quality display products, development tools and design services to our customers in a timely manner that meets their needs, promotes growth and increases customer satisfaction.*

Since 2001, Newhaven Display has been providing the worldwide marketplace with cost effective, high quality displays including OLEDs, LCDs and VFDs. In addition to our vast standard part offerings, we develop custom designs for all industries. We pride ourselves on first-rate customer support, design services and development assistance.

Our headquarters is located in Elgin, Illinois USA. To support our broad customer base, we stock most of our products at our large USA warehouse which enables quick turn-around for in-stock ordering and eliminates lead time concerns.
